

**WALL!T**<sup>®</sup>  
THE WALL CLADDING

COLLECTION  
**NATUREDREAM**

# COLLECTION **NATUREDREAM**

## Product structure and technical data

Modern home design needs warmth. It is precisely this warm living feeling that wood provides. Thanks to fresh colours and tactile surface textures, wooden wall panelling creates a very special living atmosphere.

Whether you want to treat yourself to some time out, enjoy a breath of fresh SUMMER WIND or want to be right in the ZEITGEIST when it comes to interior design. Nomen est omen with the collection NATURTRAUM collection, which perfectly combines the naturalness of exclusive wooden surfaces with the elegance of high-quality oak decors.

The installation of **WALLIT®** is very simple. On the one hand, conventional fastening on a classic wooden substructure is suitable. If drilling and screwing is not possible on an existing surface, **WALLIT®** can also be attached using a special system consisting of a specially designed double-sided adhesive pad with the addition of mounting adhesive - quickly, quietly and cleanly.

**WALLIT®** - the wood for the wall is an absolute eye-catcher within your own four walls. The innovative **WALLIT®** wall panelling offers almost limitless variety, from visually enlarging the room to creating a feel-good atmosphere.

4 mm Oak

6 mm Birch plywood
